Fall 2025 Social Group Application

For over five years, we've been proudly running social groups designed to support neurodivergent children in building meaningful connections and developing essential social-emotional skills. These groups offer unique and powerful opportunities for learning and growth through peer-to-peer interaction in a supportive, inclusive environment.

Each group is intentionally small and facilitated by professionals specializing in social-emotional child development. We provide individualized support while nurturing social growth within a group setting. Groups are carefully formed based on a "goodness of fit"—considering age, interests, strengths, and specific needs to ensure a positive and productive experience for each child.

Important Details:

- **Applying is free** — no commitment required until group placements are finalized.
- You'll be contacted approximately **two weeks before the group start date** to register and confirm
- **Email completed applications and any questions to**: groups@rootstherapeuticservices.com
- *** Fall groups include a short child profile and 1:1 parent zoom meeting ***

We look forward to another season of connection, belonging, and growth!

Child's Name (first, last): _____

Child's Date of Birth: _____
